Lo Pro Dry Mesic Savanna Open Woods Grass

Native species per mix 13
 Seeds per square foot 200
 Native FQI NE Illinois 15.25
 Native FQI Illinois 15.25
 Native Mean C Value NE Illinois 4.23
 Native Mean C Value Illinois 4.23
 Mean W Value NE Illinois 1.08
 Mean W Value Illinois 0.38

Not for de novo tree plantings! A mix of shorter grasses, sedges, & rushes, for open woodlands or woodland edges. Must have filtered sunlight or shade with several hours of direct sunlight every day. Many species will not persist or perform well in full sun or deep shade. Dormant seed.

Graminoids, or grasses, sedges, rushes, and other grasslike plants.

- Yellow is uncertain data

OBL = -5, FACW+ = -4, FACW = -3, FACW- = -2, FAC+ = -1, FAC = 0, FAC- = 1, FACU+ = 2, FACU = 3, FACU- = 4, UPL = 5.

Graminoids include *Graminae* (grasses), *Cyperaceae* (sedges), *Juncaceae* (rushes), *Sparganaceae* (burreeds), and *Acoraceae* (sweetflag). Forbs are herbs and select shrubs, which typically behave as herbaceous in a fire managed context, both having more or less showy flowers.

New and old scientific names are relative terms. Many 'new' names are actually names that were in use 80 to 100 years ago, but were replaced by the names with which we have become accustomed. New is used in the sense that the names have recently come into use or will be soon in Illinois.
