Not for de novo tree plantings! A mix of shorter grasses, highly ornamental native sedges, and shorter to medium tall forbs for low, moist to wet open woods and moist upland wooded basins. Tolerates clean standing water in spring and may dry out in August. Our most showy native sedges in this mix. Must have filtered sunlight or shade with several hours of direct sunlight every day. Will not

Graminoids, or grasses, sedges, rushes, and other grasslike plants
